

Puget Sound Shoreline Conservation Collaborative

Shoreline Properties Protected or Restored since 2014

Turn Over for Map Key

Since 2014, WA land trusts have conserved over 170,000 feet and 18,000 acres of Puget Sound shoreline!

The Shoreline Conservation Collaborative is a coalition of 14 land trusts with the goal of accelerating the protection and restoration of Puget Sound shoreline. The Collaborative is working with partners and communities across the region to protect and restore our threatened beaches, wetlands, and nearshore habitat across the Sound.

Shoreline Conservation Collaborative Map Key
